TESTIMONIALS

★★★★★ "3/8th and Co did an excellent job on installing a retractable screen over my lanai, and the price was excellent—far better than other companies. At the prices the other companies were at, I wouldn't have even done a retractable because they weren't affordable. But 3/8th and Co was affordable, and also high quality materials/equipment and installation at the same time. They used equipment and screen mesh from a well-known, high quality national brand. They were also super knowledgeable about potential installation options for the particulars of my lanai, and were very helpful in figuring out a great way of doing it ahead of time. On the day of installation, they were professional and paid close attention to the details. That was six years ago and it still works like a charm and looks great—no fading or other effects from the Florida sun and rain. Overall, the company was perfect. I really highly recommend them." —P.H.

★★★★★ "Working with Kim has been such a wonderful experience! Her extensive knowledge helped guide me to the best set up solution for my lanai shades. Her team is extremely courteous, respectful and professional. From the first contact with Kim, to her final setting up of my shades, to my home automation system, she has provided exemplary service. I couldn't recommend 3/8 and Co. more! My kitties miss her already!!!" —C.M.

PERGOLAS & PATIO COVERS

3/8 & Co.
Motorized Outdoor Comfort Solutions
We always measure up!

www.three8thsandco.com

Whether you want to extend your lanai or living space, or simply protect your existing outdoor space, our pergolas and patio covers are your perfect solution. Made from extruded aluminum components, and marine grade powder coat finishes, patio covers and louvered roofs can be wall attached or free standing. Engineered for up to 150mph hurricane winds, each structure is designed for durability and strength, as well as aesthetic appeal. Every system is customized based on your needs and desires, and available in a variety of sizes and colors. Most structures have the ability to incorporate lights, fans, screens, or privacy shades, as well as your own personal touches including decor and up lighting.

ABOUT US

I'm Kim Boynton, entrepreneur and owner of 3/8 & Co, mother of three, and nationally recognized as the "Screen Queen."

In 2003, I was presented with an opportunity to work at a manufacturing facility as an administrative assistant for a motorized screen company, starting my career in motorization. During my 13 year tenure at the company, I was promoted to Operations Manager and I oversaw production and administrative staff. But I knew I wanted more out of my life, for myself and for my children.

So I decided to start my own retail motorized screen company, providing installations for local builders.

Much has happened since I landed upon the 3/8 & Co. name (I'd be happy to share the history of the name—just ask!). I am licensed and insured as a Florida Specialty Structure contractor, and have now been bringing my innovative ideas in motorized screens, pergolas, storm screens and shutters, and patio roofing for 20 years. I am also involved in several regional and national professional building organizations.

3/8 & Co. is recognized nationwide as a reputable and trusted designer, installer, and supplier of shading solutions for all types of outdoor space. One of the things the company is known for is our ability to create a customized, unique solution to any shading problem we encounter. We work hand in hand with the home or business owner—as well as the builder—to design a functional and chic solution to keep their outdoor areas comfortable, while complementing the style of the structure.

My drive, determination, and dedication combined with my skilled and friendly staff, are what keeps this company moving in the right direction!

Pergolas & Patio Covers: Your Perfect Solution!

Select the option that best suits your needs and taste.

Louvered roof pergolas

☑ **MOTORIZED OPENING LOUVERED ROOF PERGOLA**

Motorized louvers will open up to 150 degrees, and close completely at the touch of a button providing shade from the sun, and protection from rain on your outdoor space. Versatile in that louvers can be adjusted from fully closed to open, letting in the sun or keeping it out.**

Moderno

☑ **INSULATED ALUMINUM SOLID ROOF PATIO COVER**

Efficient and architecturally stunning while protecting your patio from the sun's harsh rays and driving rain. Modern lines, decorative posts, post covers, architectural integrated gutters, and clean connections make for a luxury appearance.**

Contempo

☑ **DECORATIVE SOLID ROOF PATIO COVER WITH TRUSS ENDS**

Strong, durable, stylish, and affordable, the Contempo boasts the same framework as the Moderno patio cover, but with decorative trusses to add a more decorative look.**

Classico

☑ **EXPOSED BEAM PERGOLA STYLE PATIO COVER**

Integrates the good looks of the other patio covers but extends to maximum potential by including full trusses under the roof panels, giving the Classico the look and feel of a pergola, while retaining the aluminum maintenance free benefits.**

Aria

☑ **DECORATIVE PERGOLA WITH SHADE LATTICE**

Provides partial shade via an extruded aircraft grade aluminum alloy with a tough powder coat finish in the form of a pergola, but without the wood. Lattice beams can be spaced to provide between 40 and 90% shade.

Fresco

☑ **PERGOLA STYLE PATIO COVER WITH TRANSLUCENT ROOF PANELS**

Polycarbonate patio covers provide a pergola style roof that allows some light to pass through while keeping the heat out. Born from the Aria, the roof panels were designed to fasten to the beams and reject infrared rays.

**Can be screened with motorized screens or shades, or fixed panels with a door.
